## Certificate of Part 46 Training

This certificate fulfills the requirements of 30 CFR Part 46.9.  
**False certification is punishable under section 110(a) and (f) of the Federal Mine Safety and Health Act.**

Print Full Name of Person Trained (first, middle,last)

James E. Smith

1. Before they begin work at a mine, Newly Hired Experienced Miners can complete the New Miner Introduction Course from Complete Safety Solutions. After the class you will receive a form like this with this section completed.

### **New Miner and Newly-Hired Experienced Miner Training**

Introductory Training provided before the miner begins work (4 hrs)

(1) An introduction to the work environment, including a visit and tour of the mine, or portions of the mine that are representative of the entire mine. The method of mining or operation utilized must be explained; (2) Instruction on the recognition and avoidance of hazards, including electrical hazards, at the mine; (3) A review of the escape and emergency evacuation plans in effect at the mine and instruction on the firewarning signals and firefighting procedures; and (4) Instruction on the health and safety aspects of the tasks assigned, including the safe work procedures of such tasks, and the mandatory health and safety standards pertinent to such tasks.

Date Completed  
06/30/2008

Duration  
4 Hours

Name of Competent Person Providing Training  
Complete Safety Solutions, Randy E. Newcomer, CMSP

### **First Aid Training:**

Subject Date Completed Duration Name of Competent Person Providing Training

First

QWIK TIP: "WHAT IS EXPERIENCED?"

CPR

MSHA training is "Company-Specific", so a worker coming to you with an unexpired MSHA training certificate from another company is not certified to work for you in a mine. However, he is experienced, which simplifies the training process quite a bit. In fact he may be experienced even if his MSHA required training has expired.

**Newly-Hired Experienced Miner Training:**

Subject

Newly-Hired Experienced miners must complete virtually the same subjects that the New Miner must cover in the 4 hour Intro course, but must not add any additional training unless their job requires the use of self-rescuer or respirator.

QWIK TIP: "EXPIRATIONS"

The Newly-Hired Experienced Miner Training is good for a period of 12 months (to the end of the month in which training was received) from the date this training was conducted.

### **Hazard Awareness Training:**

Subject

**30 CFR § 46.2** Definitions.

(d)(1) Experienced miner means:

- (i) A person who is employed as a miner on April 14, 1999;
- (ii) A person who has at least 12 months of cumulative surface mining or equivalent experience on or before October 2, 2000;
- (iii) A person who began employment as a miner after April 14, 1999, but before October 2, 2000, and who has received new miner training under § 48.25 of this title or under proposed requirements published April 14, 1999, which are available from the Office of Standards, Regulations and Variances, MSHA, 1100 Wilson Boulevard, Room 2352, Arlington, Virginia 22209-3939; or
- (iv) A person employed as a miner on or after October 2, 2000, who has completed 24 hours of new miner training under § 46.5 of this part or under § 48.25 of this title and who has at least 12 cumulative months of surface mining or equivalent experience.

(d)(2) Once a miner is an experienced miner under this section, the miner will retain that status permanently.

I certify that the above training has been completed (signature of designated person responsible for health and safety training)

*John E. Doe*

2. Newly Hired Experienced Miners do not need any additional training and the person responsible for health and safety training according to the plan's general information page can sign here.
