Certificate of Part 46 Training

This certificate fulfills the requirements of 30 CFR Part 46.9.

False certification is punishable under section 110(a) and (f) of the Federal Mine Safety and Health Act.

Print Full Name of Person Trained (first, middle,last)

George Harvey Jones

New Miner and Newly-Hired Experienced Miner Training

Introductory Training provided before the miner begins work (4 hrs minimum):

(1) An introduction to the work environment, including a visit and tour of the mine, or portions of the mine that are representative of the entire mine. The method of mining or operation utilized must be explained; (2) Instruction on the recognition and avoidance of hazards, including electrical hazards, at the mine; (3) A review of the escape and emergency evacuation plans in effect at the mine and instruction on the firewarning signals and firefighting procedures; and (4) Instruction on the health and safety aspects of the tasks assigned, including the safe work procedures of such tasks, and the mandatory health and safety standards pertinent to such tasks.

Date Completed	Duration	Name of Competent Person Providing Training

First Aid Training:

First Aid			
CPR			

New Task Training:

Subject	Date Completed	Duration	Name of Competent Person Providing Training

QWIK TIP: "EXPIRATIONS"

The Refresher Training is good for a period of 12 months (to the end of the month in which training was received).

If you are a contractor and your workers' Refresher Training expires you only need to attend the next Refresher Training before going back onto mine property. You do not have to begin over with New Miner or Newly-Hired Experienced Miner as long as the worker continues to work for the same company.

Subject	Date Completed	Duration	Name of Competent Person Providing Training

1. When training is completed with Complete Safety Solutions, you will receive this form with all the necessary parts filled in. The person responsible for health and safety training according to the plan's general information page must sign here.

Annual Refresher Training (8 hrs minimum):

Training includes changes at the mine that affect the miner's health or safety and applicable subjects which may include; (1) Applicable health and safety requirements, including mandatory standards; (2) Transportation controls and communication systems; (3) Escape and emergency evacuation plans; firewarning and firefighting; (4) Ground conditions and control; (5) Traffic patterns and control; (6) Working in areas of highwalls; (7) Water hazards, pits, and spoil banks; (8) Illumination and night work; (9) First aid; (10) Electrical hazards; (11) Prevention of accidents; (12) Health; (13) Explosives; (14) Respiratory devices; (15) Mobile equipment; conveyor systems; cranes; crushers; excavators; and dredges; (16) Maintenance and repair; material handling; fall prevention and protection; and working around moving objects.
